The Player

You are the player. Each player has a configurable tank which can be turned and moved. You can also fire bullets. Your tank is stored in your Garage. Each player also has an account with a starting balance of 1000 credits.

The Game Board

- ➤ Tanks
 - The directional keys can be used to turn and move the tank.
 - Pressing a key that is a "sideways" direction causes your tank to turn that direction.
 - Pressing a key in the current or opposite direction you are facing causes your tank to move that direction.
 - Your tank can fire bullets in the direction your tank is facing.
- ➤ Walls
 - Walls can be destroyed by firing bullets at them.
- ➤ Bullets
 - Bullets are fired from Tanks and can cause damage to walls and other tanks.

Creating and Logging into an Account

- 1. Press the Login button on the home screen
- 2. Type your username and password in the textboxes
- 3. If this is a new account, press register. If this is an existing account, press login.
- 4. You are now logged in.

Gameplay

Note: The game is currently under development.

Start by pressing Join Game. You play as a tank. The goal is to fire bullets at other tanks to be the last tank standing. Move around the board using the directional keys to avoid bullets and hit other tanks with your bullets. Be careful to keep track of your health.
